

# FIRE RATED COUNTER DOOR

Models ERC10 & ERC 11 (SmokeShield®)

## MEASURE THE WIDTH AND HEIGHT OF THE OPENING

### DOOR SIZE AND AREA\*

The maximum limits listed in our UL procedure are for counter fire shutters up to 16'-0" wide, 10'-0" high or a 120 sq ft maximum. If the counter shutter is over 12' wide the limit is 7'6" high.

\*Chart based on 22 gauge steel slats.

### COMPONENT DIMENSIONS

Reference the zone number to view component dimensions for in tube hand crank and tube motor-operated units. Alternate operation methods increase headroom and sideroom requirements. Upset (zone E) is calculated with a single angle bottom bar. Sensing edges add 1" of upset. Tubular bottom bars add 2.25" of upset.

Dimensions in Inches

1	8.5	8	2	1.75	.25
2	9	8.5	2	1.75	.25
3	9.5	9	2	1.75	.25
4	10	9.5	2	1.75	.25
5	10.5-14.5	10-14	2	1.75	.25
